This is UNEVALUATED Information

1. [] it was learned that Soviet units of all types have 25X1
been arriving in the Schweinrich (N 54/U 22) training area for several
days. Large units with motor vehicles were being unloaded at the Witt-
stock railroad station and small units, mostly infantry units, at the
Dranse railroad station. Since the troops were unloaded mainly at night,
no data leading to their identification could be determined. It was
said that the movements of units to the training area would be completed
